

APPLICATION INSTRUCTIONS

1. Skin must be completely clean dry and free of any oils or lotions.
2. It is best to have a friend apply your tattoo so it will be positioned properly and so your skin is not twisted.
3. Skin area where tattoo is placed must not be twisted or stretched. The more hairless the skin the better. Shave if necessary.
4. Remove transparent covering
5. Apply water onto tattoo backing and make sure entire design is covered...wait 30-40 seconds.
6. Lift corner slightly to see if tattoo is transferring.
7. Slide paper gently aside.
8. Rinse gently with warm water to remove excess glue.
9. Be sure not to twist or stretch skin until tattoo has set (at least ten minutes).
10. Tattoos last between 2 days and 3 weeks, usually 4-8 days. This depends on such factors as skin type, location, and care.

To remove...use baby oil rubbing alcohol or masking tape.
